admission, were carefully conducted to the door of the theatorium, where an additional nickel or dime was demanded.

The shows given in the museums were generally condensed melodramas, made from dime novels or standard plays, cut down to twenty minutes, and in no case over thirty minutes. Given in a small hall, on a small stage, but with real scenery made of paper, and a change of scene for euccessful than might be imagined. They were played by regular museum favorites. were played by regular museum favorites. lar theatres.

thing like this:

Pray step this way and you will see A marvel of dexterity.
No arms with which to do his work. No task so great that he will shirk Next is a wonder oft denied. the lady who is ossifled Her entire body turned to bone The greatest wonder ever known

And so on indefinitely, in doggered verse, which was changed at any moment to suit the exigencies of the occasion As the people passed through the hill of the freaks it was often customary for one freak to exchange a time worn joke with another freak. This was supposed to entertain the crowd in an impromption way. One of the favorite museum jokes was this:

photographs for sale.

These fenders, however rough and worm they may chance to be when seen, are not simply a netted rope bag filled with some sort of stuffing and thrown over the stem; they are made in each case to fit the boat so as to give the most effective service for the use for which they are intended and so as to stay put. It is a nice job to make a good and serviceable and sightly tugboat bow fender.

Some fenders are made to order by makers of marine supplies and equipment, who employ in this work and in the making of the work and in netting without it.
